**Total # of hours worked this week: [12]**

### What you accomplished (or attempted) this week:

-Finished cleaning the dataset -Finished graphics for Question 1 and 2 - Began work on question 3

### Any setbacks/roadblocks you experienced:

Had some issues with grouping of data but besides that this week went much smoother. After finishing cleaning it has been flying doing the questions.

**What you plan to work on next:**

I want to finish the timing questions and the question on teams. I also want to begin the betting questions.

**Are you on track? If not, how will you get back on track?**

I am behind from my initial plan because I severely underestimated how long it would take to scrape, clean, and process the data. But since I finished that I feel I have quickly begun to catch up.
