Total # of hours worked this week: 11.5

### What you accomplished (or attempted) this week:

All of my data is now merged into one dataframe

### Any setbacks/roadblocks you experienced:

Just slow had some issues with using the proper joins so figuring out which joins to use without losing data took time.

**What you plan to work on next:**

Dealing with nas, figuring out what leagues i will work with and begin to start questions

**Are you on track? If not, how will you get back on track?**

A little behind but with this weekend finishing up dealing with merging the data so i have one dataset I am back on track somewhat. Just need to focus on the research questions.
